

LONDON ADVANCED LEVEL

Period : January 2016 – June 2018

Ladies' College is an approved school for the above course of study. We have been preparing students for the London Advanced Level examination for the last three decades. In the recent past, some of our students have reached great heights, scoring the highest grades in the island and the world in their respective subjects.

Unlike the local Advanced Level where the students take up the whole exam at the end of their course, London Advanced Level subjects are split into units, which can be taken during the course of studies (from January 2016 to June 2018). Our school offers the students a choice of two examination boards; Science, Mathematics and Commerce subjects in the Edexcel Board and Arts & Humanities in the Cambridge Board.

The first year is known as “*Advanced Subsidiary (AS) Level*” and the second year is “*Advanced (A2) Level*”. Mathematics and Science subjects consist of 3 units in each year, whereas Economics, Business Studies, Literature in English, Sociology, Psychology and Art & Design have two units each year. Accounting has one unit each year and Law is to be taken up once, at the end of the course.

The following is the combination of subjects currently available at Ladies' College. The students have to choose only one subject from each of the groups given below. Of the four subjects, a student has the option to drop one after one year of study and offer a *minimum of 3 subjects* for the exam.
